Job Description:

Trinity Marine Products is searching for **Structural Fitters** in our **Caruthersville, MO** barge manufacturing plant. As a Fitter at Trinity Industries, you'll lay out, position, align, and fit together fabricated parts of metal according to layouts, work orders, blueprints, schematics, and sketches in preparation for welding. You will also inspect tack-welds completed by the assigned welder, or in some cases their own tack welding work, for conformance to specifications.

What you'll do:

- Read blueprints or other specifications
- May operate overhead crane
- Measure to specifications
- Identify parts for assembly in proper order
- Follow all safety rules and practices
- May be involved in safety committees or initiatives
- Perform other duties as assigned

What you will need:

- 1-2 years of related fitter/fabrication experience
- Proficient at layout and fitting
- Ability to read and understand blueprints

- Requires the ability to work with a tape measure and determine center point; able to perform basic math (carpentry math) calculations
- Able to pass our fitter skills and tack welding assessment

Current Shift Hours: 6:00 AM - 4:30 PM, Monday - Thursday
